

Equipment:

- A dragon.
- A Dragonese dictionary.
- A helmet.
- A durable, substantial shield.
- Patience. (And a lot of it!)

Then, go into the dragon nursery and acquire a dragon baby afterwards carefully place your dragon inside of your basket. Silently, retreat from the cave.

Positively reinforce your dragon with treats but don't give him too much otherwise this trick won't work anymore!

Begin to train your deadly dragon.

Bribe your dragon with food and treats after you have done that for long enough you will have a fully trained dragon!

Firstly, visit the right eye of the skull on the mountain. Quietly, enter the cave although you must be careful not to disturb the sleeping dragons inside!

How to Train a Dragon
