

Maths – Friday 29th January

20 January 2021 11:37

Audio Recording

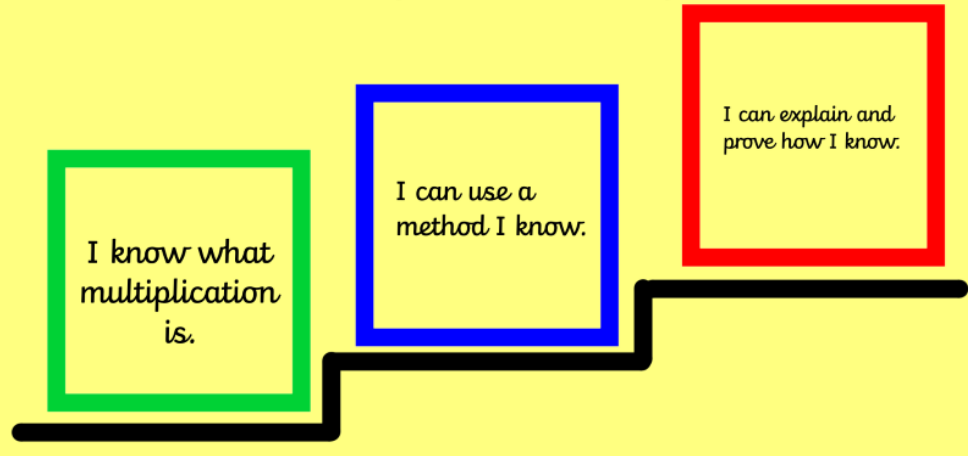

For today's starter, I would like you to count in 5s as high as you can go. Can you write them down? Can you count past 100?

TBQ: Can I solve multiplication problems?

Audio Recording

1. Write the multiplication calculation to match the array.

$$\square \times \square = \square$$

2. *There are 3 boxes, and, in each box, there are 2 balls. How many balls are there altogether?*

3. *Solve the multiplication. Draw an array to match.*

$$2 \times 10 = \square$$

4. *Bob has 4 bags, and, in each box, there are 10 sweets. How many sweets are there altogether?*
