

## Topic 4.2.21 Design a new Earth

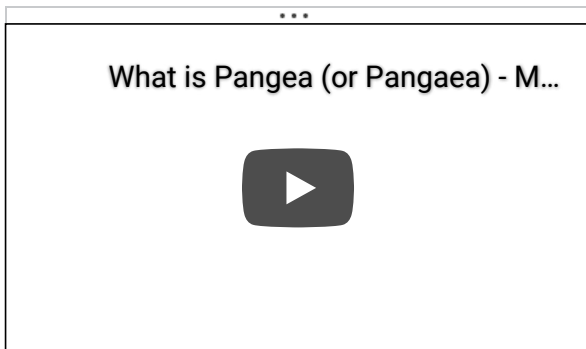

Wednesday, January 27, 2021 2:40 PM

You have learnt about Darwin's trip around the world in 1835.

But what is the world was different?

**Watch how the continents and countries have moved** over the past 250million years:

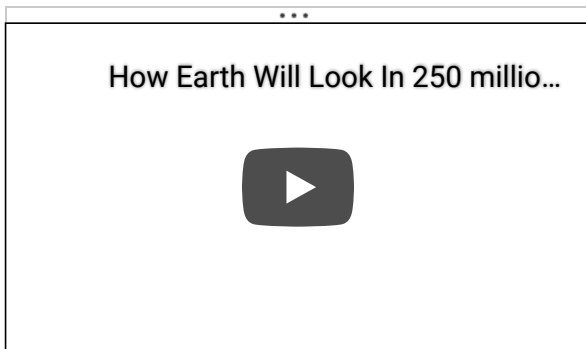

[What is Pangea \(or Pangaea\) - More Grades 3-6 Science on Harmony Square](#)

How will the earth look in another 250 million years?

**Watch this prediction** to help you:

[How Earth Will Look In 250 million Years](#)

## Challenge

Draw your new Earth with labels explaining the main changes.  
You need to explain your choices.

## Extension:

Will anything of happened to the atmosphere around our planet? Think about what you learnt in the previous session.  
Will we reverse the damage to our planet?
